

Brazil Auto Show Light Show Project

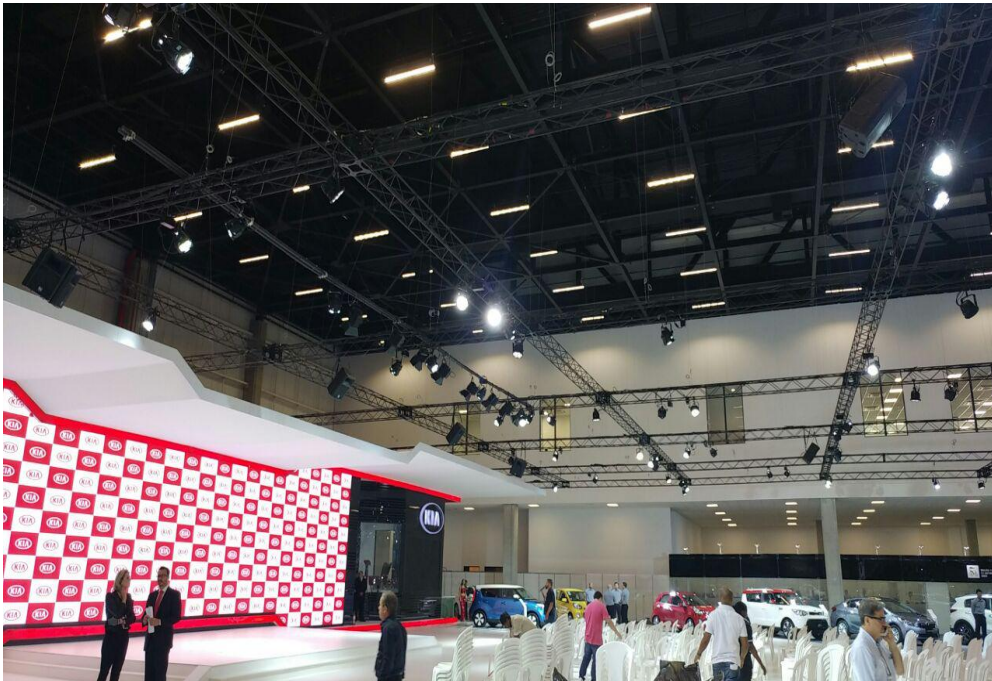

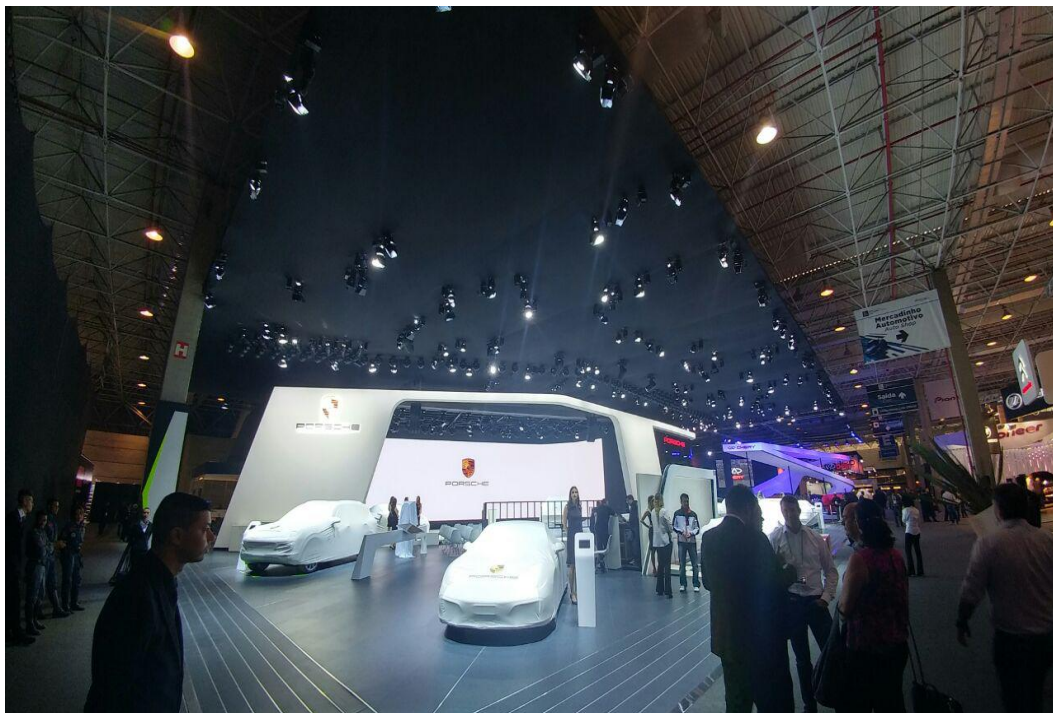

In March 2018, our company Mango lighting started a close and professional cooperation with the Brazilian Auto Show light show.

We have maintained good negotiations with the head of Brazil, and have maintained a long-term relationship. After all the plans and details of the light show were finalized, the lighting show of the station was started.

This light show used 110 units auto show lights to add brilliance and high-level lighting effects to the entire auto show. This collaboration has also been a complete success.

Now let's review the wonderful lighting effects:

Thanks for watching!
