

Taiwan Chiayi Lantern Festival Project

Chiayi County is affiliated to Taiwan Province of China, with the Taiwan Strait to the west, the Alishan Mountains and the main peak of Yushan to the east, Nantou County to the north, the Tainan City to the south, the Kaohsiung City to the south, and the Gangxi to the north. Adjacent to Yunlin County, the south side is adjacent to Tainan City.

In the bustling and illuminating Chiayi in 2018, the stage equipment of this project made the whole Chiayi more bright and yearning. What a city looks like represents the life we want to live!

About Mango: Guangzhou Mango Lighting Equipment Co., Ltd. is a professional enterprise engaged in the research, development, design, production and sales of stage lighting. With first-class production testing and R&D facilities and a number of experienced and professional R&D teams, it provides a solid foundation for the company's steady development.

Over the years, we have been striving for progress and developed Mango professional moving head lights, beam lights, LED lights and other series. In terms of product quality, service commitment, and international standards, we are committed to building the "Mango Lighting International brand."

Mango lighting, with its beautiful appearance, eye-catching color, high-tech, excellent quality, stable performance and first-class service, has been applied to various fields at home and abroad, and has been recognized and praised by people from all walks of life at home and abroad. Products are exported to Europe and the United States, the Middle East, South Africa and other overseas countries.

Thanks for watching!
